DISRUPTIVE BEHAVIOR POLICY (revised 7/2023)

To terminate destructive or disruptive behavior, we will escort the child away from the group to talk with a teacher and redirect their play, understanding that it is an opportunity to find a better way to manage themselves and their current behavior.

The child is gently redirected and may play quietly or look at a book in a location where supervision is always maintained by the staff. When the child feels better and is able to manage him or herself, the child may return to the group.

Staff will continuously supervise children during disciplinary actions.

Staff shall not be abusive, neglectful, or use physical, humiliating or frightening punishment under any circumstances. No child shall be physically restrained unless it is necessary to protect the safety and health of the child or another child or adult.

In the event that a child's negative behavior continues and jeopardizes the safety of the classroom, we will notify the parent(s) to immediately pick up the child.

Parents: Please sign below to acknowledge that this policy has been discussed with you prior to the start of school and that you have read and understand it. We will discuss it at Orientation.
